and NSD File No. L-00-72.

Dear FCC:

To whom it may concern,

I was just informed that you are trying to raise the rates on all wireless prepaid phones. For one this is NOT right. I am a high school student and was accepted into a program that has me drive 30 minutes to school in the morning and I need a phone to make this trip in case something happens I also hold down a job with that and regular school, this would make it impossible for me to keep the phone because between the rates for this phone and the cost of gas I am always short for money. This is not fair and you should think about how it will affect your customers instead of how it will affect your pocket, for once the government should give instead of receive, just think about it. I know if you were in my position you would think the same. This raise in rates would cost you many customers. Thank you.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Katie Bradley
